# 10" Bluetooth Keyboard – Black

PRODUCT ID: 3600

Description

Add a slim, lightweight Bluetooth keyboard that is neither too big, nor too small for your computer project! We've found the "just right" Goldilocks-size keyboard, a mere 9.6" x 5.8" x 0.2"!

This keyboard has helpful indicator lights for Caps Lock, Bluetooth, Charge, and Power. It makes a great typing interface for a computer, especially for tablets, phones, boards and computers with built-in Bluetooth support, such as the Raspberry Pi 3 and the Pi Zero W.

USB charging cable included. Initial charge takes about two hours.
